RSIVL database copyright notice

© Copyright 2015 Imaging and Vision Laboratory.

All rights reserved

This distribution is approved by Raimondo Schettini, chief of the Imaging and Vision Laboratory

Permission is hereby granted, without written agreement and without license or royalty fees, to use, copy, modify, and distribute the RSIVL database (the individual images, the results, the source files and its documentation) for educational and research purposes only, provided that the copyright notice in its entirety appear in all copies of this database. You may also publish the images in scholarly journals to report research results without any further permission from IVL.

Any other commercial distribution or publication of the images, in original or modified form, requires the prior written permission of IVL.

The database and our paper are to be cited in the bibliography as:

Corchs, Silvia Elena, Gianluigi Ciocca, Emanuela Bricolo, and Francesca Gasparini. "Predicting complexity perception of real world images." *PloS one* 11, no. 6 (2016): e0157986.
